Huawei Student Developers - Core Team: Led the project committee; organized 3 events and 1 hackathon. 2024-2025
Shipin - Technical Core Team & Social Media Manager: Managed technical operations and social media. 2026-2026

Experience

Full Stack Developer, Omedya Bilişim A.Ş. - Ankara July 2025 - Present
- Contributed to the Clevio.kids monorepo mobile app with 50+ games; developed the logic for 30+ games using React Native.
- Worked on the OSTİM, 7 industrial cluster, OSTİM İstihdam and Foreign Trade portals; built systems used by 6,500+ companies and 10,000+ users. Developed AI agents and automation services.
- **Technologies:** React Native, Angular, Astro.js, Tailwind CSS, Material UI, C# / .NET 10, PostgreSQL, MongoDB.

Part-Time Full Stack Developer, ARC Foreign Trade - Ankara Feb 2025 - June 2025
- Delivered websites for 10+ companies and a Gemini-based RAG chatbot used by 250+ people. Owned UI/UX and end-to-end development. **Technologies:** React, Next.js, Express.js, Supabase, Firebase, MongoDB.

Intern Full Stack Developer, Tarvina Software Technologies Oct 2024 - Dec 2024
- Worked in an 8-person Agile/Scrum team; designed 3+ web applications and user flows. Built an end-to-end blog with Next.js, Express.js and MongoDB, including comment replies, likes and analytics.

Projects

OSTİM + 7 Industrial Clusters - Multi-Tenant Digital Platform July 2025 - May 2026
- Built a hostname-based platform for OSTİM and ARUS, HTK, ENERJİK, İSİM, KAUÇUK, MEDİKAL and OSSA. Used OmdCore, .NET 10, EF Core and PostgreSQL for tenant isolation, permissioned cross-tenant administration and tenant-specific branding.
- Delivered an Angular 20 zoneless admin panel with dynamic CRUD, role-based access, content, company directory and reporting modules. Rendered Astro-generated Liquid themes server-side in .NET via Fluid for localized, SEO-ready public websites.

OSTİM İstihdam - Employment & Recruitment Platform
- Built job listings, applications, candidate tracking, CVs, company records, meetings, courses and reports with OmdCore, .NET 10, EF Core, PostgreSQL and Angular 20. Integrated İŞKUR job synchronization, Gemini moderation and email/SMS notifications.
- Created a manageable, SEO-ready public website layer with Astro + Liquid/Fluid. Enabled OSTİM and CV Sağlık deployments from the same codebase with isolated configuration, databases and branding.
